Honorable James H. Welsh  
Commissioner of Conservation  
Office of Conservation  
P. O. Box 94275  
Baton Rouge, LA 70804-4275

Re: Yegua Zone, Reservoir B  
STARKS FIELD  
Calcasieu Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **EOG RESOURCES, INC.** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the Yegua Zone, Reservoir B, in the Starks Field, Calcasieu Parish, Louisiana:

1. To establish rules and regulations and to create a single drilling and production unit for the exploration for and production of gas and condensate from the Yegua Zone, Reservoir B, in the Starks Field, Calcasieu Parish, Louisiana, said proposed unit designated Y RB SUA, as shown on the plat attached hereto and made a part hereof.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed units with each tract sharing in unit production on a surface acreage basis of participation.
3. To provide that any wells drilled to the Yegua Zone, Reservoir B, within or outside of the unit created herein, should be located in accordance with the spacing provisions of LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E).
4. To provide that the Commissioner of Conservation should be authorized to reclassify the reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir changes and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.
5. To consider such others matters as may be pertinent.

The Yegua Zone, Reservoir B, in the Starks Field, is hereby defined as being that gas and condensate bearing zone encountered between the depths of 12,413 feet and 13,362 feet (electrical log measurements) in the EP Operating Co. – William D. Blake 14 No. 1 Well, located in Section 14, Township 9 South, Range 13 West, Calcasieu Parish, Louisiana.

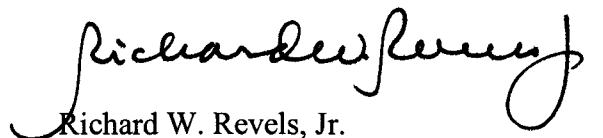

Pertinent data, including well logs, may be obtained **AT THE COST OF THE REQUESTING PARTY** from W. H. Robbins & Associates, L.L.C., 302 LaRue France, Lafayette, Louisiana 70508, Telephone Number (337) 232-5004.

Pursuant to the Rules of Procedure, a pre-application conference was held on May 25, 2006, in Lafayette, Louisiana, at which the parties named on the attached list were in attendance. The conference was opened by representatives of the applicant who explained the bases for the unit being requested. Questions were asked and answered. Two counterplans were presented by landowner representatives. One suggested the unit be shifted southward, and one proposed to shift the unit to the north and west. No resolution of differences was reached, and the conference was then adjourned. Opposition at the hearing is likely.

Attached hereto and made a part hereof are the following: a plat outlining the applicant's proposal, the conference attendance list and the list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this application is being mailed. Pursuant to the Revised Rules of Procedure, the list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be furnished to any party requesting copies. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, enclosed is our check in the amount of \$755.00 made payable to the Office of Conservation submitted on behalf of the applicant representing the hearing application fee.

Very truly yours,

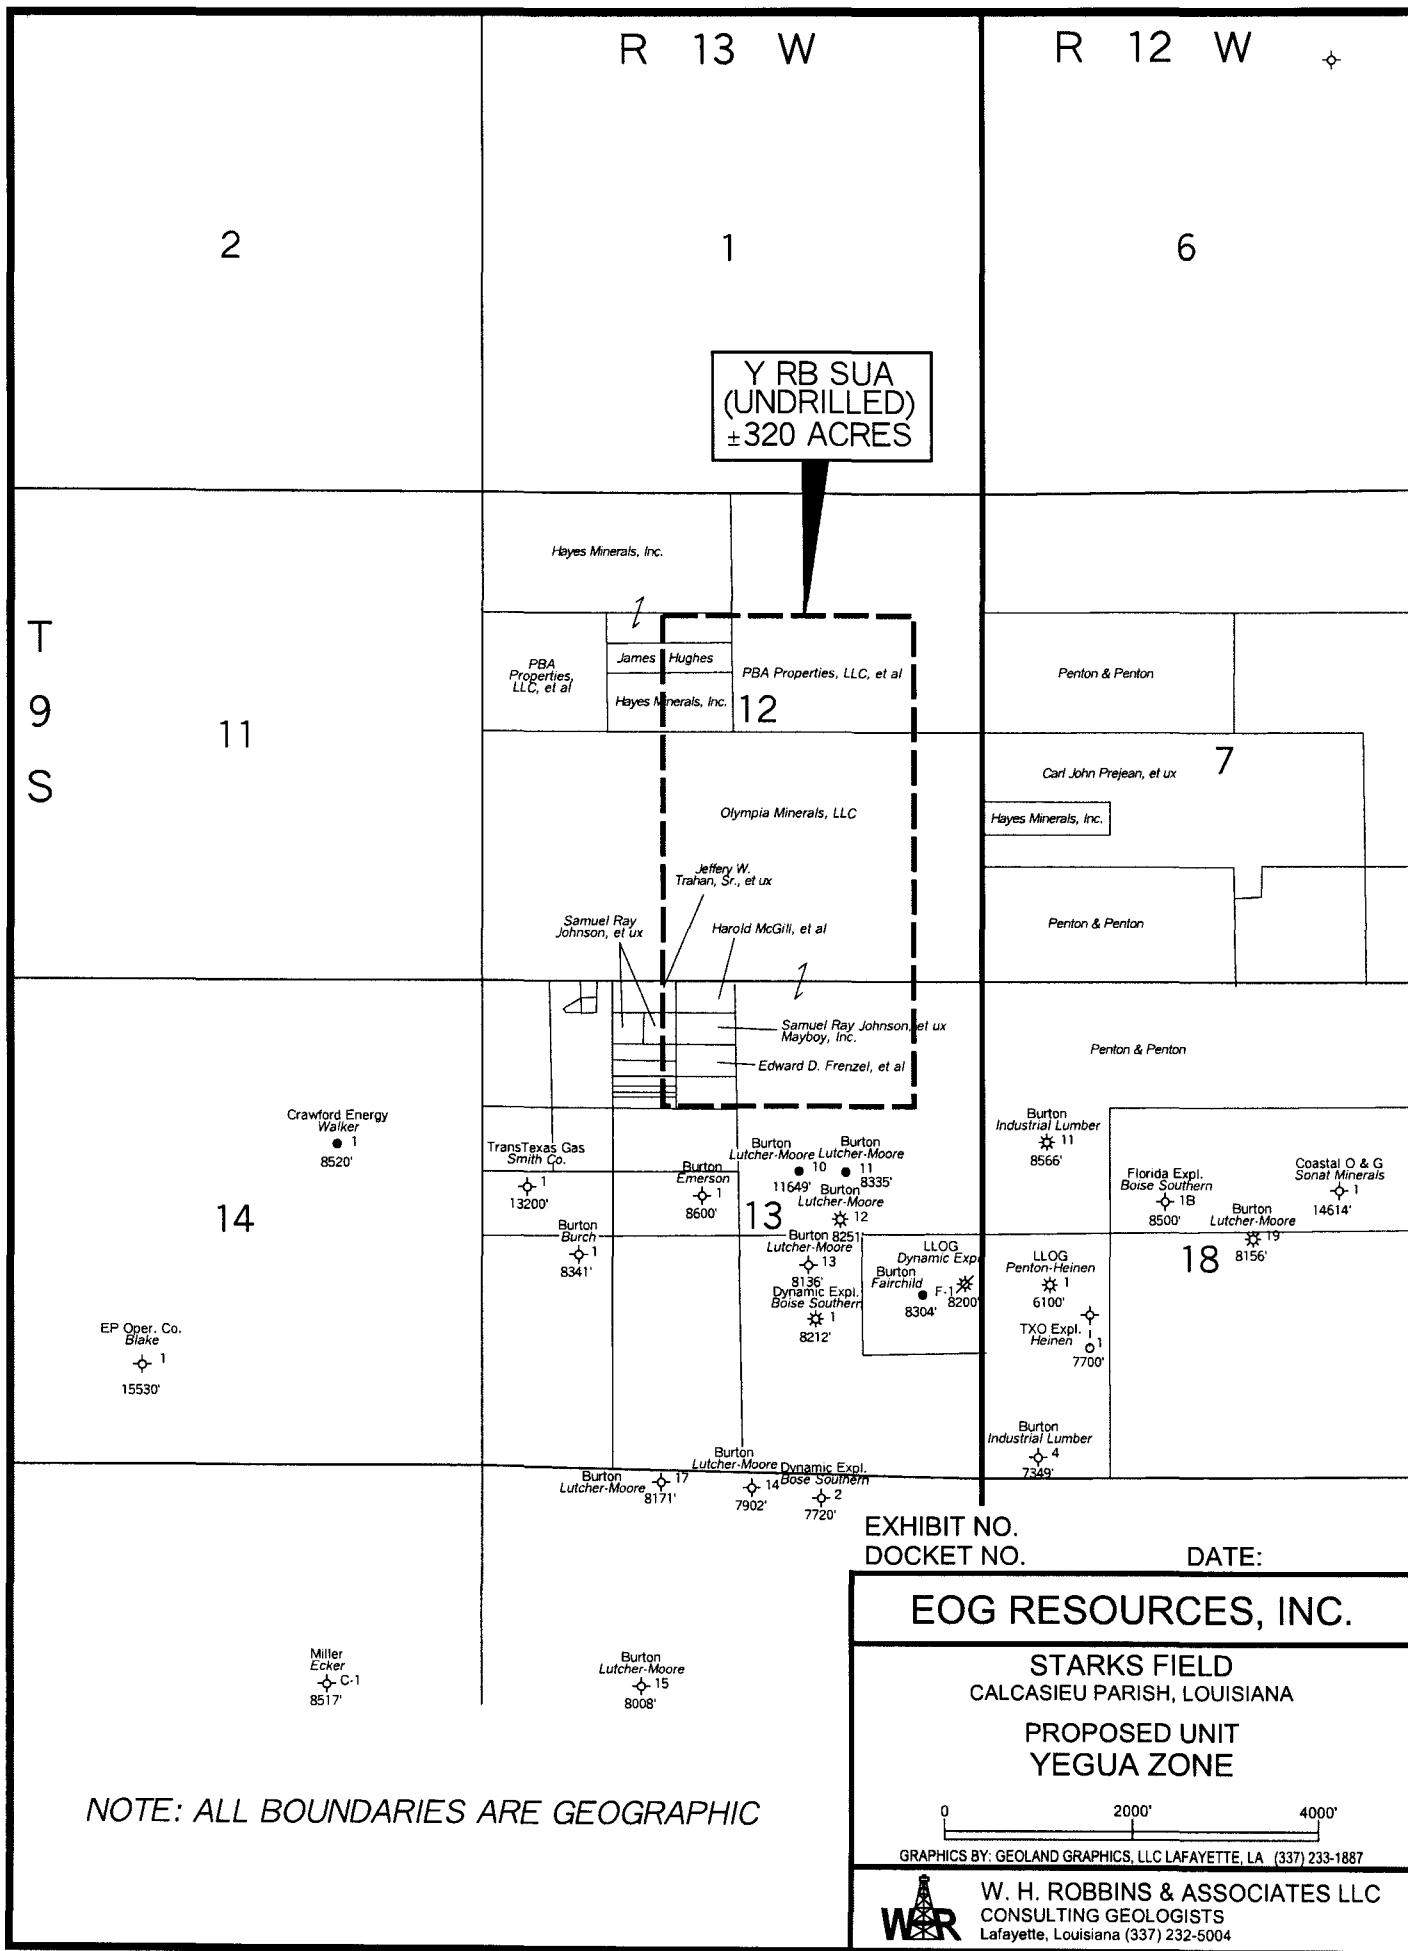

Richard W. Revels, Jr.
